The Height of Kings and Their Consorts. A remarkable feature about reigning European monarchs is that they are nearly all shorter than their consorts. nearly all shorter than their consorts. King George V. is several inches shorter than Queen Mary. The German empress is a trifle taller than the lealer, who always insists on the empress sitting down when they are photographed together. The czar looks quite small by the side of Queen Victoria Engenie, and the king of Italy bendly reaches to the shoulder of

"To kiss her or not to kiss her, is the question," says The Chattanooga. Times. A man who stops to question is lost. The thing is to tilt her chin and take a long, thrilling, throbbing smack and discuss the matter afterward.—Houston Post.
